HERBERT HENRY ASQUITH.

Novel Skirt Gauge.

Inventors are divided into two classes-those that invent skirt gauges and those that invent other things, and the latter are only slightly in the majority. One of the former,

a California man, designed the skirt gauge shown in the illustration.

This consists in a base plate, with guide ways and an upright backing plate. A guage plate, corresponding with the backing plate, is movably mounted on the base and is held in position by a spring. The gauge plate has a series of slots running up to it to permit of the garment being marked. The skirt is placed between the two upright plates and the device is moved around its whole circumference. The amount to be taken off the garment is measured on the gauge plate, and by means of a piece of chalk this length can be marked off as the device circles the cloth. As will be readily noted, the line thus drawn is necessarily accurate and there is no danger of taking off more cloth in one part than in another .-Boston Post.

A Certain City Peril.

run down .- Boston Herald.

A Useful Man. "See him? That's the baby elephant. He's the best kicker in the "How far can he kick?" team." "Oh, he doesn't kick far, he kicks hard. He's disabled thirty-seven this season."-Public Opinion.

Car Seats on Lever.

Aside from the question of comfort, the thing that limits the distance between car seats is the space needed for the turning of the backs of these seats. A Philadelphia man has eliminated this feature by inventing a __Mrs. Mary E. Robinson, in the Hosmechanism which turns alternate seats automatically, and not only saves space, but saves the conductor time. This device consists of a lever mechanism running under the seats and connecting with the backs. There are two levers, each operating alternate seats, so that when one series are turned the others remain stationary, and there is no interference between them. Who has not seen a conductor passing through a train or trolley at the end of a run and turning the seats one by one? With this butter melts. Take from the fire and device the whole two rows of seat stir a little of the warm mixture into backs can be reversed with two move-

Of course, if you stay in the city ments, either by hand or by means of you won't be shot by being mistaken the compressed air which operates for a deer, but you may be mistaken the brakes, as it is easy to harness for a lamp post by a chauffeur and the levers to this power.-Washing-I ton Star.

Chopping Knife.

designed by a Colorado man, and a

The blades, as will be observed, are No, this is not a bird cage in the attached to the handle by heavy illustration. It is a chopping knife curved arms. When this tool is brought down on a piece of meat or a strong and effective implement it is. head of cabbage it speedily converts the objects into shreds. In most cases chopping knives are made with single, or at best, double blades. It will quickly if soaked in milk instead of be readily seen that a circular blade will do much more work than one or two straight ones. Another use for this cutter is in cutting the dough for doughnuts, cookies or other circular cakes, though in ordinary round cakes the inside ring will form the add materially in making the biscuits cake while the hoop of dough that is light. left can either be baked into a hoor of cake or the left-over dough can be rolled again and the cutting continued till all is used up, as is usually done.-Washington Star.

> The milling industry of Glasgow each form. consists of six large concerns of varyproduced in 1907 approximately 1,400,000 barrels of flour. They make slightly in excess of one-third lemon juice and sugar and let the the requirement.

THE & EPICURE'S CORNER

Nut Wafers.

Beat two eggs and cream, with them a half pound brown sugar. Add a rounded tablespoonful and a half flour sifted with a quarter teaspoonful baking powder and a saltspoonful salt. Add also a cupful walnut or pecan meats broken in small pieces and a teaspoonful vanilla. Drop the mixture on to buttered tins, put a whole nut meat on the top of each cake and bake about five minutes in a brisk oven .- Emma Paddock Telford, in the New York Telegram.

Nut Cookies.

Use for these little cakes a cupful hickory nuts or any other nut preferred. Rub to a cream one pound light brown sugar and one cupful lard and butter mixed. Add two wellbeaten eggs, one cupful sour milk into which a rounded teaspoonful soda has been beaten, the cupful nuts and flour, a little at a time until the dough is stiff enough to roll out. Roll thin, cut in circles or any fancy shape desired, place on a well-greased pan and bake in a quick oven for four or five minutes.-Emma Paddock Telford, in the New York Tele-

Stuffing For Turkey.

Boil the kidney, heart and liver until very tender, letting the water boil away until there is about onehalf cup left; chop very fine into two onions, add ten or twelve crackers, chopped with two large boiled potatoes; mix the water and a cup of milk and an egg together and stir in the chopped part, adding more milk if necessary, for you want it quite thin; then add pepper, salt and sage to taste and dots of butter. Of course you will have to keep adding boiling water to the giblets, as it boils away.

Hollandaise Sauce.

This is particularly good to serve with boiled fish. Mix in a bowl two tablespoonfuls butter, a teaspoonful lemon juice, a bit of bay leaf, a half dozen whole black peppers and if the butter is fresh a saltspoonful salt. Add a cupful stock or water and the juice of a lemon. Place the bowl in a pan of hot water and stir until the the well beaten yolk of three eggs. When mixed, gradually add the remainder of the sauce, return to the fire and stir steadily until thickened. Add another tablespoonful of butter and serve. The sauce is the foundation for lobster sauce or oyster sauce.

Add to a pint of Hollandaise the chopped meat of one lobster craw and half the meat of one lobster pounded to a paste with the last table. spoonful butter to be added. For oyster sauce add a dozen and a half oysters that have been scalded in their own liquor to a pint of the Hollandaise. Do not add too much of the oyster liquor, as the sauce must not be too thin .- New York Telegram.

BURDENS LIFTED FROM BENT BACKS

Weary is the back that bears the burden of kidney ills. There's no rest nor peace for the man or woman who has a bad back. The distress begins in early morning. You feel lame and not refreshed. It's hard to get out of bed. It hurts to stoop to tie your shoes. All day the ache keeps up. Any sudden movement sends a sharp twinge through the back. It is torture to stoop or straighten. At night the sufferer retires to toss and twist and groan. Backache is kidney ache—a throbbing, dull aching in the kidneys. To cure backache you must first cure the kidneys. Plasters or liniments won't do. You must get at the cause, inside.

DOAN'S KIDNEY PILLS CURE SICK KIDNEYS

BACKACHE, DIZZINESS, NERV OUSNESS

Completely Relieved by Doan's Kidney Pills in Two Tests.

Mrs. P. W. Bessinger, 1328 Taylor St., Columbia, S. C., says: "I heartily recommend Doan's Kidney Pills, knowing from experience that they are a valuable remedy. Several years ago I suffered severely at times from pains in the small of my back and often felt dizzy and nervous. back and often felt dizzy and nervous. The kidney secretions were irregular in passage and caused me much annoyance. Hearing Doan's Kidney Pills highly recommended I procured a supply, and after taking the contents of several boxes I was so greatly relieved that I considered it unnecessary to continue their use. Recently I felt a slight recurrence of my trouble, but I immediately began using Doan's Kidney Pills and was relieved."

HOW TO TELL WHEN THE KIDNEYS ARE DISORDERED.

PAINFUL SYMPTOMS — Backache, sideache, pains when stooping or lifting, sudden sharp twinges, rheumatic pains, neuralgia, painful, scanty or too frequent urination, dizzy spells, dropsy.

URINARY SYMPTOMS—Discolored or cloudy urine. Urine that contains sediment. Urine that stains the linen. Painful passages. Blood or shreds in the urine. Let a bottleful of the morning urine stand for 24 hours. If it shows a cloudy or fleecy settling, or a layer of fine grains, like brick-dust, the kidneys are disordered.

TWO YEARS CURED. Backache, Kidney and Bladder Trouble Disappeared For Good.

ble Disappeared For Good.

J. A. Wirt, Russell St., Canisteo, N. Y., says: "I had kidney and bladder trouble for more than a year. My back was lame and I had an ache across my kidneys day and night. For days at a time I could not stoop or lift, and if I attempted to do so sharp shooting pains radiated through my body. The kidney secretions were unnatural and there was much sediment in them. The passages were also too frequent and caused me much annoyance. Having Doan's Kidney Pills brought to my attention I obtained a box. Their use brought relief in a few hours, and the contents of four boxes completely cured me. At that time I told of my experience in a public statement, and can now say that during the years which have since elapsed I have found Doan's Kidney Pills effective whenever I have taken them."

A Star That Winks.

There is in the constellation Pegasus a little variable star that may reasonably be said to wink. Two or three times in the course of a single night this curious star can be seen to fade and then to brighten like a signal light. For about two and three-quarters hours it becomes fainter and fainter; then comes a change, and at the end of two and three-quarranks as a sun.—Harper's Weekly

Hammurabi and Moses.

There is no foundation for the claim, advanced in certain quarters, that Moses copied his laws from the code of Hammurabi of Babylon. The best scholars are positively of the opinion that there is no ground whatever for supposing that the Hammurabi code was known to or came within the purview of Moses. The very contrast between the Babylonian code and the Mosaic laws would seem to give pointblank evidence of the fact that Moses had no access to the Babylonian laws as epitomized in this code. The laws of Moses are full of sanitary provisions, provisions for the Sabbath, provisions against unnatural is not one at hand, a large spool, crimes, provisions regulating a priesthood, none of which subjects is dealt with in the Hammurabi code.

Natural Gas.

Natural gas is a member of the paraffin series formed by the decomposition of animal matter, as in Ohio from the frying pan, put in vinegar and Indiana gas, and from vegetable matter, as in Pennsylvania gas, this decay having occurred within the For creaming butter or butter and rocks, and probably at moderate temsugar, a perforated spoon will be peratures. When once formed it acfound more convenient than a fork or cumulates in the pores of the rocks in which it originated, or in the overlaying layers, but is usually kept tasty addition to any cream soup, from escaping to the surface by the presence of some layers of impervious rock. It is then obtained by the piercing of these strata by wells, or where the beds have been fissured by folding or faulting, it may issue from natural channels.

CHANGE THE VIBRATION It Makes For Health.
